**Today's Beauty Recipes**  
 By Mme. D.M.H.

"A good and inexpensive corrective treatment for faulty complexion, callosities, pimples or eruptions is easily made at home by dissolving an original package of maytine in a half-pint of witch hazel. Stop using powders, creams and lotions over the face, neck and forehead each morning. It will protect against sunburn, tan and freckles, and prevent the growth of hair. It makes the skin fresh and smooth, with the color of youth."

The perfect shampoo is one that totally removes dandruff. When you can brush out dandruff scales the day after shampooing, your scalp has not been freed from the parasites that cause dandruff, dandruff and falling hair. Mother's Shampoo is the best dandruff remover I know of. It keeps the scalp free and the hair fluffy and full of life and color.

Feminine beauty and charm is often marred by superfluous hair. A sure, safe and speedy hair remover is made by mixing a little powdered delatone and water. Cover the wild hairs with this paste for two minutes, wipe off, wash the skin and the hairs will be gone.—Advertisement.
